About us and our Goals

– – – – – – – – – – – – – – X

United Community Coin (UCC) is a fully decentralized Community Project which will offer swaps for abandoned coins where is no leadership at all. It all begun with Adirondack - the DEVs left after Exchange-Listing and making Money. Short Time later at ITIS and WILO happened the same. These 3 Coins were swapped in first phase after the launch of the UCC Network.

The basic idea behind UCC is to fight against scam! Nearly all UCC-Discord Members where victims of scam attempts in past. We try to make the crypto-space a bit safer by not only offering swaps, instead we we will also support newbies to the Crypto-World by helping with problems and publishing useful articles on our newly created Crypto-Knowledgebase: https://crypto-kb.org

We will analyse new Coins on the Market and make Reviews. Other Projects have the ability to get certified by us. They need to provide unique informations which we will store at a safe place - offline. After checking the provided informations we will categorize the Project to a specific level of certification, put it on our Website together with the review and the Projects can show our Certificate on their Website. To be sure be get valid data, we ask for more detailed informations as other services on the market like KYD.

UCC helps Projects where the chain gets stuck or the Developers run away. We try to let the Projects continue with their initial Idea - in such case we only assist to revive the Project. If all fails we are there to offer swaps to lost Communities.

We will have a Government System where the Community Members have the ability to make Proposals for new Projects, these Projects can then be founded by other Community Members who like the idea (somehow like Crowd-funding in Crypto-Currency). We hope that new Projects stands up out of these Ideas and we can provide a good starting ground for this by having Members who offer help.

Once UCC has reached a stable level of value, we will make Masternode Raffles and give the earnings to charity organizations. The Funds for this will be taken from the swap-fee.

The Wallet is forked from the XDNA Wallet. As a Result our Members can use the Tripple Node Technology (3 Masternode Levels), the GitGun Algo during the Proof of Work (PoW) Phase which ensures a steady income to the miners by adjusting the block reward to the hashrate. Currently XDNA did not have a working PoS-Stack into its wallet because they don't need it right now (they will implement it later, it's actually in progress). The UCC-Developers did this step and included the PoS-Stack and the SeeSaw-Algorithm into the UCC-Wallet so that we will go to Proof of Stake in the middle of August 2019.

Specifications

– – – – – – – – X

Ticker: UCC
Algo : HEX
PoW duration: 462.000 Blocks
PoW reward : 4 UCC estimated value, dynamic 4-109 UCC
Instamine Protection: 720 Blocks
Instamine Reward   : 1 UCC
Estimated Supply for PoW: 7.148.000
PoS starting Block: 462.001
PoS duration   : unlimited
PoS Block reward : 5 UCC lowering by 1 every 2 years
POS block reward distribution: SeeSaw
Estimated UCC supply 15 y: 39.427.148
Light masternode collateral : 1000
Medium masternode collateral: 3000
Full masternode collateral : 5000
Light masternode reward : 3%
Medium masternode reward: 9%
Full masternode reward : 15%
Masternode reward activation Block: 7001
Premine: 5,3 M UCC mainly for all the needed swaps
Fee for Team payments: 3%
Fee used for generating Coins for future Swaps: 7%
Remaining Reward in Percent per Block for PoW/PoS: 63%
Blocksize: 1 MB
Block average Time: 1 min
Number of Transaction confirmations: 6
Maturity: 60 confirmations
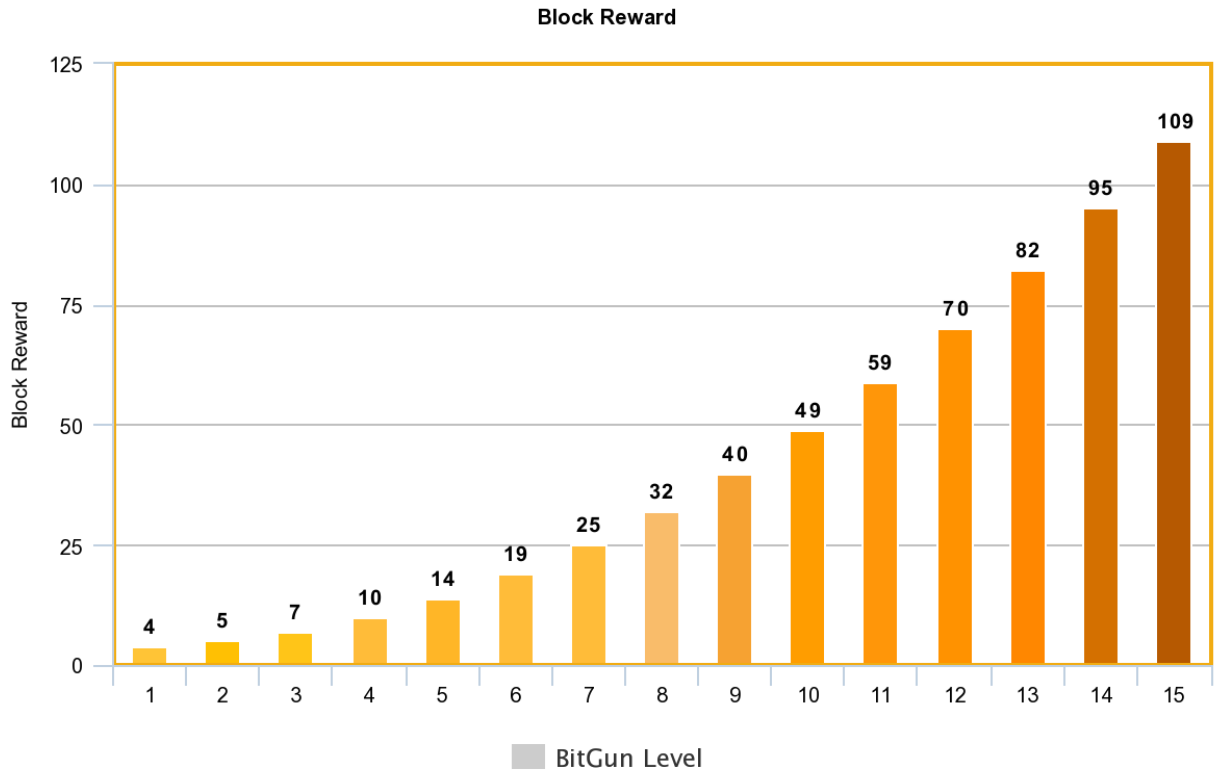

Block Distribution

Light MN: 3.0%
Medium MN: 9.0%
Full MN: 15.0%
Swap-Fee: 7.0%
Team-Fee: 3.0%
Miner-Reward: 63.0%

Light MN Medium MN Full MN Swap-Fee Team-Fee Miner-Reward

Block Reward during PoW Phase

Roadmap

‒ ‒ ‒ ‒ ‒ ‒ ‒ X

> Continue Coin Review & Certification

> Release *bay-like Trading-Platform (Pay with UCC)

> Help Scam-Victims; Swap other Coins if neccessary

2020 and ongoing

> Help Scam-Victims; Swap other Coins if neccessary

> begin development of *bay-like Trading-Platform

> Support Community Projects

> Introduce Government Voting System

> Continue Coin Review & Certification

2019

> Begin Coin-Review Service & Certification

> Swapping Coins for ADR, ITIS and WILO

> Raffle for MN (for Listing Fees + Charity)

> Start of UCC Network, Register Exchanges

2018

Team-Payments
- - - - - - - - X

To have some motivation to get new and active team-members we are using the team-fee for Payouts. We will only payout active People in following scheme:

All monthly Fees (actually 5184 UCC; 3% from a Block) will be paid out and distributed to all active People. No Coins will be left after each month. If less people are active; the active members will get more UCC; if more People are active you will get less ucc; Also we honor work for bringing in new Features:

Community Support and Marketing = Payout Factor 1

Improvements, Coding new Features = Payout Factor 1,5

Example: (2 active Members)

If you are active, and only then, you will get a payout for the month by checking how many weeks you where active and how many not:

Person 1: 3 of 4 weeks active = 3 weeks to payout

Person 2: 4 of 4 weeks active = 4 weeks to payout

...

Total 7 Weeks;

5184 / 7 = amount per week plus/minus the Factor = coins to payout for each person (look at the picture).

Total per Month				5184				
Sum of active Weeks				7				
= Amount per Week				740,57				

2019

Member	Factor	Address	Jan	Feb	calc	Final Amount	Mar	Apr
person 1	1			3	2221,71	1481,14		
person 2	1,5			4	4443,43	3702,86		

Total Sum					6665,14	5184,00	
difference with available per month					-1481,14		
Sum of Persons				2			
= correction per Person					-740,57		

We hope that this scheme will bring us forward faster so that we can reach our goals.

To step up as Team-Member you will have to be at least two Months active participating on our Discord Server.

Swap-Fee

– – – – – – – – ✗

Because we offer swaps for scammed communities, we need some coins we can use for this purpose. For that we have the Premine of 5,3M UCC in the beginning of the Project. But these Coins will be swapped at some point in the future. To ensure we have a continuously flow of coins available for swaps we introduced the swap-fee which is 7% of a Block Reward.

Team Members
